

LIVESTOCK DOORS

We offer you durable and very solid livestock doors. The door leaf is completely filled with PVC. The door has fittings, frame and hinges made of reliable acid-proof stainless steel.

- | The materials used guarantee the highest level of hygiene and easy cleaning.
- | The frame and hinges are made of acid-proof stainless steel, thanks to which they are resistant to all detergents, slightly acid and alkaline agents.
- | They ensure long durability in the microclimate environment of pig farms, barns, henhouses(chicken coop?) poultry farms, etc.

- | Intended for use inside the farm.
- | Available in right or left version.
- | Custom size door available on request
